v1.01

A great Arcade Multiplayer for gatherings.
A Free for All, or Team Game, or Football, or even Capture the flag.
A Party game! for up to (and including) 8 players on one screen!.

Only three inputs needed, left right and Fire

My family loves this game, (even The grandkids and grandparents).
This has now become one of our many family traditions
 - the winner gets control of the tv remote for the whole day.

Works very well with Logitech F710 controller (the conrollers we use).

I recommend this game.
